

Power Runner FPR-112

Continued Upgrade from Run Rocket RR-112 to SteelFlex FPR-112 with shrink package for Transportation

There are many different options for resistance: rubber bands, sleds, parachutes. The Power Runner FPR-112 is the only that mimics the natural resistance an athlete feels when free running, just amplified. The resistance is linear and completely smooth, with no dangerous pullback. This makes the Power Runner FPR-112 the ideal tool for training an athlete to maximum potential. When you want speed, there is no substitute.

New Digital readout

PORTABLE DESIGN

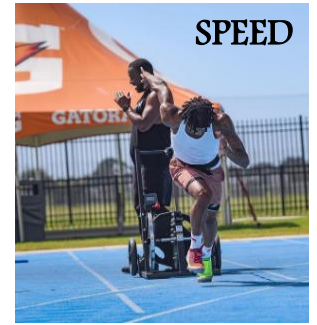

Transports easily with large, no-flat wheels across turf, track & field turf with camping nails to fix, or pavement.

AUTOMATIC RETRACTION

When the exercise is complete, the unit SAFELY retracts the strap – no dangerous pullback.

Made in Taiwan

If you don't have one of these in your training program, you need to get one.

From the NFL to Major League Soccer, this machine is used by professional athletes everywhere. Football, Basketball, Soccer, Hockey, Bobsledding, and the top CrossFit competitors.

Push yourself to higher levels of power, speed and agility with the Run Rocket! Features include:
