

A machine where form truly follows function.

Multi-position handgrips are located on a forward and frontal plane to reduce lower back strain and provide ultimate wrist comfort. Center-drive design distributes weight evenly to eliminate torsional flexing of resistance arm and frame.

In every respect, this is shoulder training the way it should be SSP-800.

Includes 95 kg & Shroud.

- Low center of gravity that maximises workout stability
- Pivot point is aligned at a level equal to the mid-point of exercise movement
- High adjustable seat
- Multi-position handgrips located on a forward and frontal plane
- Highly-polished, chrome plated solid steel guide rods and selector rods
- Extra-tough, tear-resistant Duraform upholstery is double-stitched
- Selectorized weight stack 95 kg
- Fiberglass reinforced nylon pulleys with v-grooved channels
- Nylon-coated, self-lubricating, aircraft-quality steel cables
- Double, powder-coat finish protects against scratching, chipping and peeling
- 5 x 10 cm high-tensile strength steel. All 4-side welded
- Ideal for private & commercial use
- Dimensions: L 130 cm x W 163 cm x H 158 cm
- Weight: 266 kg
- Color: grey, black or maroon lining
