

PRO-DUAL

by Body-Solid

BICEP CURL

Instructions:

Sit and adjust the back rest and arm rest so your elbow joint is aligned with the pivot point.

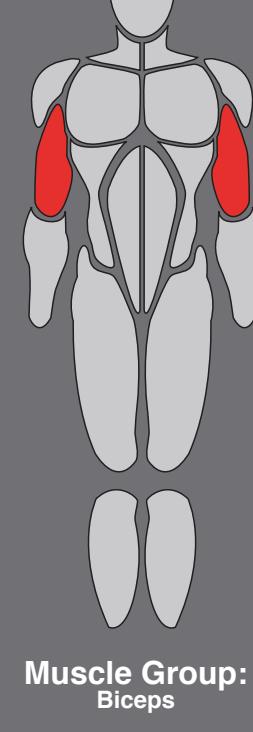

Set the starting position by adjusting the handle to a comfortable, extended position.

Insert selector pin in weight stack at desired resistance level

Grasp the bicep handles in a horizontal or angled position

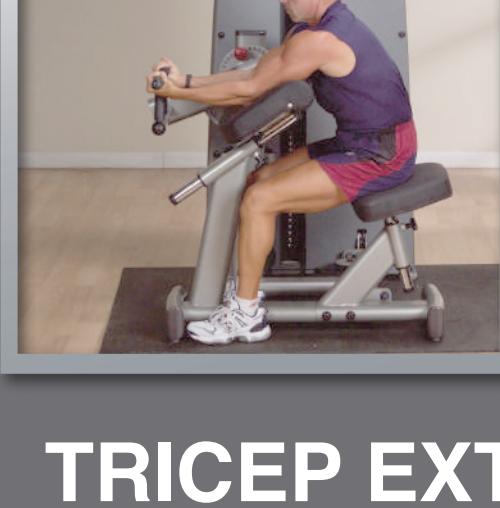

Flex your arm upwards at a smooth, controlled rate.

Pause for a moment, then slowly return to the starting position and repeat the movement.

Muscle Group:
Biceps
