

- Elliptical E65 is designed with an inviting modern style, and the stride in ergonomics delivers a natural path without discomfort, impact, and injury.
- Bilateral multi-grip handles drive with pedals simultaneously that ensure body balance and stability during workouts.
- The transport wheel installs on the forefront of the machine for convenient moving and positioning.
- The stride movement is designed with a suspension system that facilitates the exerciser to master a realistic feeling of each pace.
- And this optimal devising can decrease the friction noise caused by the machine.
